

Elective Screening Procedure

Medical and Vision insurance does **NOT** cover these screenings and will be an *out-of-pocket cost due at the time of your visit*. If your doctor has diagnosed you with a medical condition that requires diagnostic testing or documentation, then this can be filed to your medical insurance; which may pay some or all of the charges.

- **Macula & Glaucoma Scan:** A quick, non-invasive, scan that allows our doctors to see beneath the surface of your Retina. This unique technology can help our doctors detect vision threatening and systemic diseases in their very early stages; which is when they are most treatable.
- **Digital Retinal Imaging:** A digital photo that allows our doctors to detect early signs of diabetic retinopathy, macular degeneration, retinal detachments, and other vision threatening conditions.

- I elect the Macula & Glaucoma Scan - \$38 (FV30)
- I elect the Digital Retinal Imaging - \$35 (FV52)
- I elect BOTH, the Macula & Glaucoma Scan and the Digital Retinal Imaging - \$73 (FV)
- I decline both screenings
